

## **ABCN Announces Computer Based Testing for Parts I & II and Recertification**

The ABCN examinations are now being offered at PSI/LaserGrade Computer Centers around the country. Oral examinations have been discontinued as of 2010.

ABCN contracts with the Professional Testing Corporation (PTC) to administer the examinations. PTC uses PSI/LaserGrade Testing Centers to provide computer-based testing services. The examination will be administered during an established two-week testing period at PSI/LaserGrade Computer Testing, Inc. PSI/LaserGrade has several hundred computer-based testing sites in the United States. Scheduling is done on a first-come, first-serve basis. To locate the center closest to your location, please enter your zip code at [www.lasergrade.com](http://www.lasergrade.com). *There is the potential that the Epilepsy Monitoring Track may not be available at every testing center. Efforts are being made to make this as convenient as possible.*

Hours and days of availability vary at different centers. Please note that you will not be able to schedule your examination appointment until you have received an Eligibility Notice from PTC.

If you do not receive an Eligibility Notice or other correspondence at least three weeks before the beginning of the testing period, contact the Professional Testing Corporation by telephone at 212-356-0660.

If you need to cancel your examination appointment or reschedule to a different date within the testing period you must contact PSI/LaserGrade at 800-211-2754 no later than noon, Eastern Standard Time of the second business day PRIOR to your scheduled appointment.

There are no refunds for this examination. If you fail to arrive for your appointment or do not reschedule within the same testing period, you will forfeit your testing fee.
